DESIGN BOOK

UNOX CASA

Unox Casa was born from a long-cherished dream, inspired by a tangible need within the high-end market: to bring the performance of world-class professional kitchens into luxury private homes. Every time the founders of Unox cooked for friends using a professional Unox oven installed in their home, the question was always the same: "***Can we have one too?***" However, traditional professional ovens were not suited to domestic environments in terms of size, technical connections, and industrial aesthetics. The right moment arrived during the pandemic, when people began to rethink the home as an increasingly functional and technologically advanced space. From the challenge of the hospitality shutdown emerged an opportunity: "If customers cannot go to the restaurant, we will bring the restaurant to them." Driven by its pioneering spirit, Unox was the first to bring this evolution into the heart of the home on a large scale: the kitchen. Thus, **SuperOven was born - the only truly professional oven specifically designed for domestic use** - re-engineered from the oven chosen by Michelin-starred chefs around the world, with its design and user experience refined for the most exclusive private residences, without compromising performance or results.

UNOX GROUP

GREATEST CHEFS' CHOICE

Founded in **1990** in Padua, **Unox** is today the world's leading manufacturer of **professional ovens**. Since its inception, the company has distinguished itself through the development of advanced technologies capable of ensuring uniform and precise cooking in every operating condition, becoming a benchmark for foodservice professionals worldwide. Headquartered in Cadoneghe, Unox has consistently invested in **technological innovation** with the ambition of continually surpassing its own limits and redefining the way food is cooked and experienced. The **complete vertical integration** of design and manufacturing - entirely carried out in Italy - combined with production processes guided by the principles of **Lean Economy** and a service of excellence, has enabled the company to achieve unique quality standards, making it the best-selling professional oven brand in the world. This vision also takes shape in **Unox City**, inaugurated at the end of 2025: a next-generation industrial campus spanning 130,000 square meters that embodies the future of manufacturing - a sustainable, technologically advanced ecosystem designed around people's well-being. Within this journey stands **Net Zero E-Mixion**, Unox's strategic plan to achieve climate neutrality by drastically reducing environmental impact across the entire value chain.

"Michelin star perfection meets the exclusivity of the world's most extraordinary residences

UNOX CASA BRAND

STARRED LIVING

After achieving international leadership in the professional sector, Unox chose to invest in a new segment with the **Unox Casa** brand, driven by the ambition to bring the performance of the finest restaurant ovens into private homes. Technology and expertise, tradition and digital innovation - the brand actively challenges the status quo, inspiring individuals to become the best chefs they can possibly be. With SuperOven, Unox Casa has given life to a new lifestyle: '***Starred Living***' - an elite vision of living, in which the culinary excellence of **Michelin-starred cuisine** meets, for the very first time, the unparalleled luxury of **exclusive residences**. By combining the performance of the most refined restaurants with distinctive Italian design, the iconic Unox Casa oven transforms the kitchen into the heart of the home, elevating the everyday culinary experience. Every dish becomes a symphony of flavours and aromas, reminiscent of those crafted by a Michelin-starred chef. Within this vision, haute cuisine becomes the centrepiece of elite living spaces, revolutionising the very essence of homeowners' lives and elevating it to a starred status.

UNOX CASA

SUPEROVEN COLLECTION

SuperOven enables **every type of cooking**, including those that have never been possible in domestic ovens, such as grilling, frying, smoking, dehydrating, steaming, or sous-vide cooking. Thanks to sensors that continuously monitor the percentage of humidity inside the cooking chamber, food can be cooked perfectly and evenly - up to three times faster than in a conventional oven. The intuitive, user-friendly interface allows access to over **400 automatic cooking programmes**.

Simply select the desired result, and the oven automatically determines the optimal parameters, adjusting them according to the quantity of food being prepared. All models also feature an **integrated hood** that eliminates odours and vapours entirely; a convenient **drawer** for storing accessories; and an **automatic washing system**, through which the oven cleans itself using a solution of water and an eco-friendly detergent patented by Unox.

Model 1

Model 1
Venice

Model 1 is a technological totem that combines power and precision within two vertically stacked cooking chambers, allowing multiple preparations to be managed simultaneously. An iconic oven, defined by a unique and timeless design, it opens the door to infinite culinary possibilities.

Model 1S

Model 1S
Milan

Model 1S, winner of the ***Red Dot Design Award***, is the more compact version, featuring a single cooking chamber without compromising performance. The beating heart of the home, where culinary excellence and essential design merge into a refined, minimalist aesthetic.

Model 1 Black Edition

Model 1
Black Edition
Guatemala

Model 1 - Black Edition is a statement of style, designed to enhance the elegance of any kitchen environment. The contrast between the black finish and the surrounding textures adds depth, inviting the creation of culinary masterpieces within a space that reflects a bold design vision.

Model 1S Black Edition

Model 1S
Black Edition
AIUla

Model 1S - Black Edition, winner of the ***Good Design Award***, is a bold and sophisticated choice for a contemporary, elegant kitchen space. Conceived for those who appreciate contrast and seek an appliance capable of introducing dynamic chromatic character into the heart of the home.

UNOX CASA

SUPEROVEN FINISHES

Stainless steel

A tribute to our heritage. Satin stainless steel is the iconic finish of SuperOven: a timeless design born in the finest professional kitchens, now bringing their excellence and performance into the most exclusive residences.

Black Edition

A new interpretation. The Black Edition reimagines SuperOven with a refined matte black finish. A bold aesthetic that preserves the professional performance of the stainless steel version while offering a new dimension of elegance and visual depth.

SUPEROVEN

TECHNICAL DETAILS

Electrical connection - Model 1

Model 1 requires a three-phase electrical supply (~3PH+N+PE) with a total power of 10 kW.

Electrical connection - Model 1S

Model 1S requires a three-phase electrical supply (~3PH+N+PE) with a total power of 6.2 kW.

Water connection - Model 1 & Model 1S

Water inlet

Prepare a ¾" male tap to which the John Guest adapter will be connected. The inlet hose reaching the connection hole should have a diameter of 1 cm.

Water outlet

Prepare a 40 mm diameter hose resistant to high temperatures. The drain operates by gravity, so it is important to respect the levels specified in the technical datasheet.

We recommend positioning the water tap in an easily accessible location to allow for closure if necessary.

Integrated hood

The hood can be configured in either filtration or extraction mode. For optimal performance, we recommend installation in extraction mode.

SUPEROVEN

INSTALLATIONS

SuperOven naturally complements and enhances any kitchen design. The various installation options offer maximum design flexibility, allowing the oven to be seamlessly integrated into any kitchen layout. Adding to this versatility, the cooking chamber doors can be configured to open in either direction, ensuring optimal ergonomics and intuitive use, adapting to the specific needs of every space and project.

MODEL 1S INSTALLED WITH STAND

Model 1S offers a single installation mode: flush with the kitchen cabinetry, ensuring visual continuity with the overall structure. In this configuration, Model 1S can be installed using a support **stand** with wheels, which facilitates positioning the oven into the cabinetry niche and subsequent handling. Installation can also be carried out without a stand, by placing the oven on suitable furniture capable of supporting its weight of 136 kg.

Width: 800 mm
Depth: 740 mm
Height: 1096 mm

MODEL 1
FLUSH
INSTALLATION

This installation option integrates **Model 1 flush** with the kitchen cabinetry, ensuring a clean and harmonious aesthetic. In this configuration, the frame is attached to the oven, and the assembly is then inserted into the dedicated niche within the kitchen unit.

Width: 800 mm
Depth: 740 mm
Height: 2137 mm

MODEL 1
PROUD
INSTALLATION

This option allows **Model 1** to be installed **proud** from the kitchen cabinetry, creating a dynamic visual effect that further enhances its presence. In this configuration, the frame is attached directly to the kitchen unit, and the oven is subsequently inserted.

Width: 788 mm
Depth: 740 mm
Height: 2130 mm

DESIGN CONCIERGE

The in-house **Design Concierge** team provides dedicated support at every stage of the design process - from initial analysis and connection verification to the project's detailed execution - ensuring that every custom SuperOven installation is not only a perfect fit, but a true expression of personal style.

7 YEAR WARRANTY

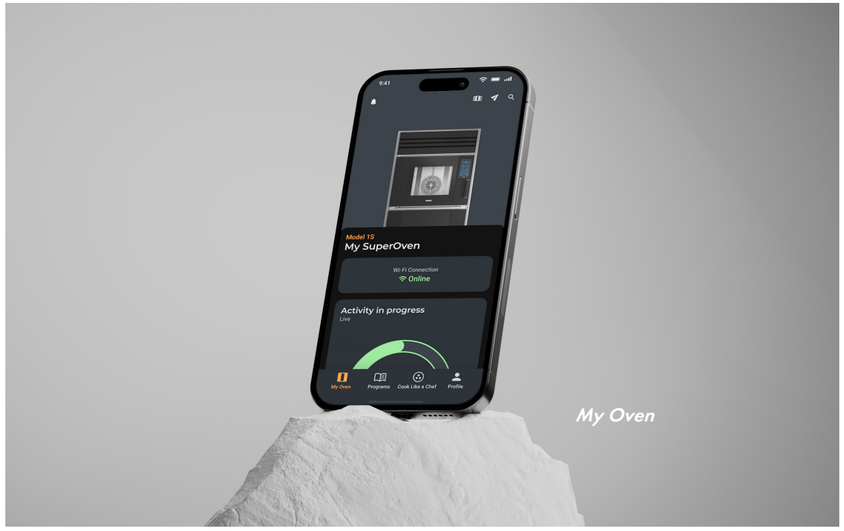

All Unox Casa ovens are designed and built to stand the test of time. Every detail reflects the commitment and dedication of visionary engineers and designers, who bring their expertise to the world's most demanding kitchens. As a testament to this relentless pursuit of perfection, SuperOven comes with an extendable **7-year / 10,000-hour warranty** - an unmatched benchmark in the domestic sector.

UNOX CASA

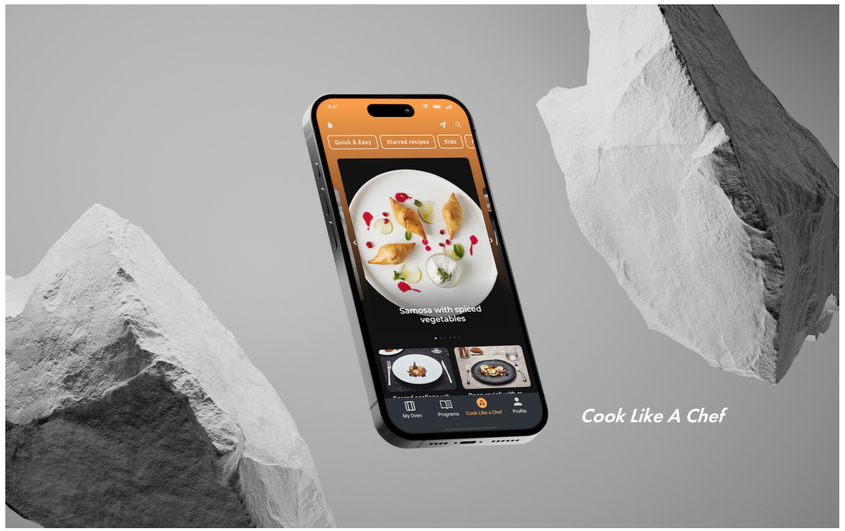

UNOX CASA APP

A new era of interactive cooking.

The **Unox Casa App** is the digital extension of SuperOven, enhancing control, precision, and creativity within the home. Available in multiple languages, the app is organized into three distinct sections. The first, ***My Oven***, is an intuitive dashboard that monitors cooking and cleaning phases.

Next is ***Programs***, a space to create your own personalised cooking programs. Finally, ***Cook Like a Chef*** - *"the Netflix of cooking"* - an exclusive collection of recipes crafted by Unox chefs and international culinary stars, designed to fully showcase the performance of SuperOven.

Scan the QR code, download the Unox Casa App, and step into a new universe of culinary creativity.

UNOX CASA

INSPIRATIONS

SuperOven transforms every kitchen into a unique space, seamlessly integrating into any environment and design. From urban lofts to exclusive residences, from contemporary projects to historic homes, **the first professional oven for the home takes centre stage**, inspiring culinary creativity and a signature atmosphere. Every project tells a story - of passion, harmony with the surroundings, and meticulous attention to detail. Every experience fully reflects the philosophy of Unox Casa.
